

NOTICE TO MARINERS

No.15 of 2024

Diving Operations- Cathodic protection survey

Mariners are hereby advised that, commencing on Monday 0th June, 2024, Equilibrant Ltd will be conducting an underwater inspection of sacrificial anodes on quay infrastructure.

Works to take approximately 3 weeks.

Diving operations will be scheduled to avoid interference with commercial shipping activities.

Support boat is the “LANDBERG” which may be accompanied by a support pontoon.

The following berths will be surveyed: Musgrave Scrap Wharf, Stormont Wharf, West Twin, Gotto Wharf, VT1, VT2, Donegal Quay and Albert Quay Linkspan.

Mariners are requested to maintain a wide berth in proximity of area of diving activity.

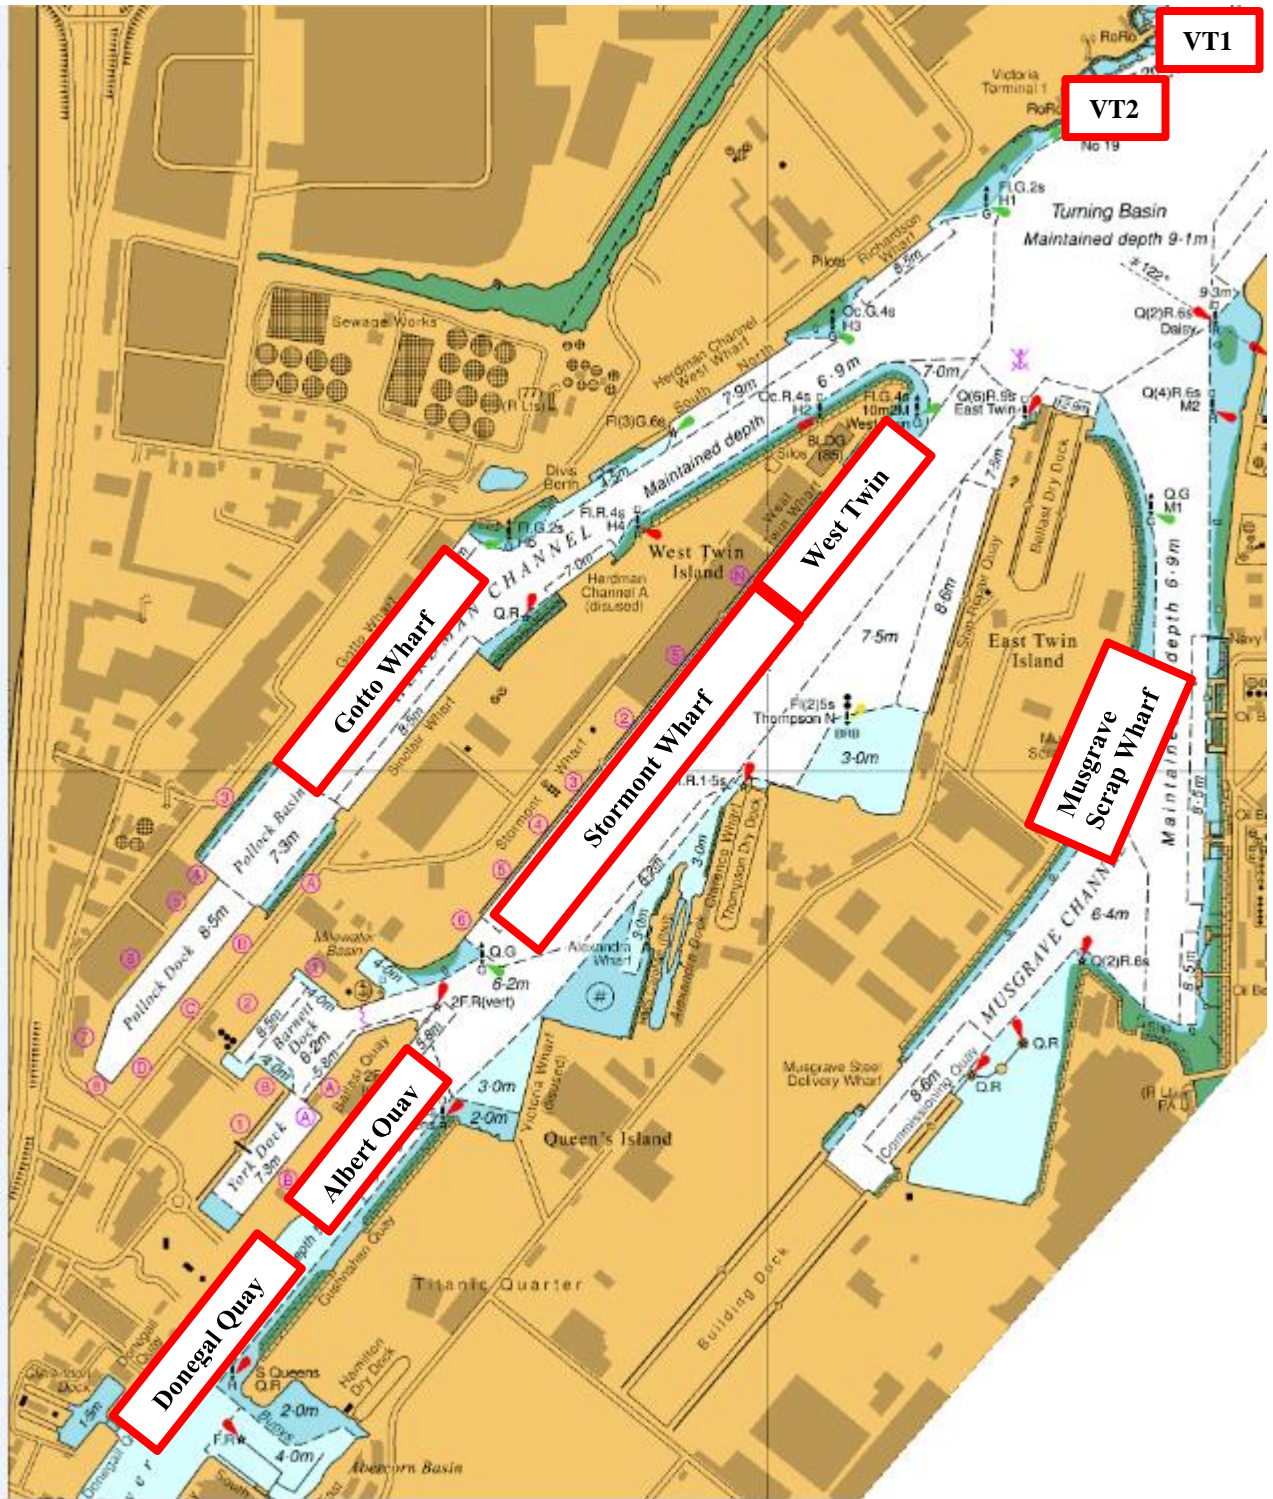

Pass with minimal wash to ensure the safety of the divers.

Please keep a listening watch for Belfast VTS on VHF Ch 12 for advice.

Dive Support RIB “LANDBERG” and “EQUILIBRANT PONTOON”

Your cooperation in adhering to these guidelines is greatly appreciated to ensure the safety and efficiency of the survey operations.
